AUTHOR INDEX

VOLUME 8

Armstrong, Donald, 180

Barbieri, Joseph T., 34
Beebe, James L., 336
Bendinelli, Mauro, 87
Berger, Timothy G., 440
Brunell, Philip A., 260

Campbell, Lee Ann, 451
Ceccherini-Nelli, Luca, 87

De Clercq, Erik, 200

Elliott, J. A., 479

Facklam, Richard, 479

Garzelli, Carlo, 87
Grayston, J. Thomas, 451
Groothuis, Jessie R., 22

Hazen, Kevin C., 462
Helbling, A., 161
Hemming, Val G., 22
Horner, W. E., 161
Hurley, James C., 268

Jackson, Lisa A., 451
Johnson, Alan P., 585
Jones, Clinton, 549

Kaper, James B., 48
Khaw, Melvin, 427
Kiehn, Timothy E., 180
Koneman, Elmer W., 336
Kotb, Malak, 411
Krueger, Kathleen M., 34
Kuo, Cho-Chou, 451

Larsen, Sandra A., 1
Lehrer, S. B., 161
Levine, Myron M., 48
Livermore, David M., 557
Lombardi, Stefania, 87

Malvaldi, Gino, 87
Matteucci, Donatella, 87
Mitchell, Thomas G., 515
Morris, J. Glenn, Jr., 48
Morrison, Donald, 585
Morse, Stephen A., 357
Musser, James M., 496

Nassif, Xavier, 376
Norkin, Leonard C., 293

Panosian, Claire B., 427
Perfect, John R., 515
Perkins, Bradley A., 440
Pistello, Mauro, 87
Poli, Alessandro, 87
Prince, Gregory A., 22

Raffalli, John, 180
Riley, Lee, 180
Rudolph, Andrew H., 1

Salvaggio, J. E., 161
Sarver, Nava, 406
Sepkowitz, Kent A., 180
Sewell, David L., 389
Siber, George R., 22
So, Magdalene, 376
Sohnle, Peter G., 317
Speller, David C. E., 585
Steiner, Bret M., 1
Summerbell, Richard C., 240

Tappero, Jordan W., 440
Torrey, E. Fuller, 131
Tozzini, Franco, 87
Trees, David L., 357

Vogel, Frederick R., 406

Wagner, David K., 317
Weiss, Judith B., 113
Weitzman, Irene, 240
Wenger, Jay D., 440
Wheat, Joseph, 146
Wood, David L., 260
Woodford, Neil, 585

Yolken, Robert H., 131

SUBJECT INDEX

VOLUME 8

ADP-ribosylating exotoxins
  bacterial, 34
AIDS
  mycoses
    endemic, 146
  tuberculosis, 180
Allergens
  fungal, 161
Antimicrobial agent resistance
  mycobacteria, 496

β-Lactamases
  laboratory and clinical resistance, 557
Biosafety
  laboratory-associated infections, 389
Bipolar disorder
  viruses, 131

Cervical cancer
  herpes simplex virus type II
    cofactor, 549
Chancroid
  H. ducreyi, 357
Chlamydia pneumoniae (TWAR)
  animal models, 451
  clinical manifestations, 451
  epidemiology, 451
  laboratory diagnosis, 451
  microbiology, 451
  pathogenesis, 451
  treatment, 451
Cholera
  clinical features, 48
  epidemiology, 48
  immune response and vaccines, 48
  isolation and identification, 48
  pathogenesis and virulence factors, 48
Cocci
  catalase negative, gram positive
    classification, 479
    clinical relevance, 479
    excluding streptococci and enterococci, 479
    identification, 479
Cryptococcosis
  AIDS era, 515
Cutaneous defenses
  dermatophytes, 317
  yeasts, 317
Cutaneous infections
  human immunodeficiency virus
    opportunistic infections, 440

Dermatophytes
  cutaneous defenses, 317
  fungi, 240, 317
DNA probes
  parasitic infections, 113

Endotoxemia
  methods of detection and clinical correlates, 268
Exotoxins
  ADP-ribosylating
    bacterial, 34

Feline immunodeficiency virus
  cat pathogen, 87
  model for AIDS studies, 87
Fungi
  allergens, 161
  dermatophytes, 240
    cutaneous defenses, 317

Glycopeptide resistance
  current perspectives, 585

Haemophilus ducreyi
  chancroid, 357
Herpes simplex virus type II
  cervical cancer
    cofactor, 549
Human immunodeficiency virus
  antiviral therapy, 200
  opportunistic infections
    cutaneous manifestations, 440
Hyperimmune globulins
  respiratory syncytial virus infections, 22

Laboratory-associated infections
  biosafety, 389

Measles
  control in the United States, 260
Mycobacteria
  antimicrobial agent resistance
    molecular genetic insights, 496
Mycoses
  AIDS, 146
  endemic, 146

Neisseriae
  pathogenic
    interaction with nonphagocytic cells, 376
Neoplastic disease
  uncommon bacteria in blood, 336
Nonphagocytic cells
  pathogenic neisseriae
    interaction with nonphagocytic cells, 376
Nucleic acids
  vaccines, 406

Parasitic infections
  diagnosis
    DNA probes, 113
    PCR, 113
PCR
  parasitic infections, 113
Protozoa
  human pathogens
    therapy, 427
Pyrogenic exotoxins
  superantigens, 411

Respiratory syncytial virus infections
  hyperimmune globulins, 22

Schizophrenia
  viruses, 131
Superantigens
  pyrogenic exotoxins, 411
Syphilis
  interpretation of tests, 1
  laboratory diagnosis, 1

Treponema pallidum
  interpretation of tests, 1
  laboratory diagnosis, 1
Tuberculosis
  AIDS era, 180

Uncommon bacteria
  neoplastic disease, 336

Vaccines
  nucleic acids, 406
Virus receptors
  antiviral agents, 293
  pathogenesis, 293

Yeasts
  cutaneous defenses, 317
  new and emerging pathogens, 462
